Re: EB-06-TC-060
Certification of CPNI Filing, February 6, 2006

Dear Madame Secretary:

Pursuant to the Commission's Public Notice DA 06-223 dated January 30, 2006, transmitted herewith on behalf of TXII Acquisition, LLC d/b/a CellularONE of East Texas ("CellularONE of East Texas") is the Certification of CPNI Filing for CellularONE of East Texas in the above-referenced docket.

In the event that the Commission or its staff should have any questions concerning this filing, please refer them to undersigned counsel for CellularONE of East Texas.

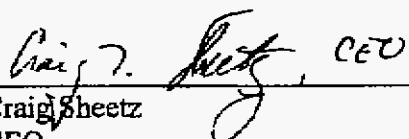

Very truly yours,

J. Steven Rich
for PAUL, HASTINGS, JANOFSKY & WALKER LLP

CERTIFICATE

I, Craig Sheetz, Chief Executive Officer of TX11 Acquisition, LLC d/b/a CellularONE of East Texas ("CellularONE of East Texas"), certify as agent for CellularONE of East Texas that I have personal knowledge that CellularONE of East Texas has established operating procedures that are adequate to ensure compliance by CellularONE of East Texas and its affiliates and subsidiaries with the rules of the Federal Communications Commission contained in Part 64, Subpart U of the Code of Federal Regulations. Attachment 1 hereto describes these operating procedures.

Craig Sheetz
CEO
February 5, 2006

Attachment 1

CellularONE of East Texas is a provider of Commercial Mobile Radio Service. CellularONE of East Texas does not currently use customer proprietary network information ("CPNI") for internal marketing purposes or share CPNI with affiliates or with third parties, other than pursuant to requests by duly-authorized law enforcement officials or as otherwise explained below. Consequently, CellularONE of East Texas is not required to and does not maintain either an "opt-in" or "opt-out" system with respect to CPNI. In the event that CellularONE of East Texas were to change the ways in which it uses CPNI, any such change would be reviewed and approved by the company's CEO, who is familiar with the FCC's rules governing the use of CPNI and who is the certifying officer for CPNI purposes.

CellularONE of East Texas has established procedures to maintain the security of CPNI of its customers. For example, the data from the switches that CellularONE of East Texas shares with other carriers are transmitted to VeriSign via a virtual private network using a proprietary, encrypted file format. All parties that have access to CPNI of CellularONE of East Texas' customers that is stored on its shared switches or who are otherwise involved in the transmission of its customers' CPNI are bound by confidentiality agreements. Further, CellularONE of East Texas maintains all CPNI on a secure VeriSign server, and CPNI is accessible only to select, specially-trained employees who are assigned individual IDs and passwords for this server that are separate from their IDs and passwords for the company's network.

CellularONE of East Texas representatives will discuss customer account information only after a caller has presented unique identifying information establishing that the requesting party is, in fact, the subscriber whose records are requested. CellularONE of East Texas provides call detail records only to law enforcement officials who present a valid subpoena or to

customers who establish their identity as described above. In the case of a customer who requests copies of his or her calling records, CellularONE of East Texas provides such records in hard-copy format only, and only by mail to the address on file for such customer. CellularONE of East Texas trains all employees on the importance of confidentiality of customer information, and regularly audits employees' activities on the company's network to ensure that employees act in accordance with company policies, including policies relating to the security and confidentiality of CPNI.
